SAM CAGE # 87VH6 | EIN - 27-4840178 | DUNS - 06-970-2948 | NAICS Code 562910

SUMMARY

RECON Outfitters was founded in 2011 to provide Frac tank rental and a wide range of services related to the Remediation and Construction sectors. We specialize in providing the best liquid, solid storage containment and water treatment solutions. We are adept at designing, building, and implementing temporary systems and service for water, wastewater, dewatering, and remediation projects.

CORE COMPETENCIES

- Frac Tank Storage
- Double-Walled Tanks
- Transportation Logistics
- Containment
- Vertical Tanks
- Centrifugal & Submersible Pumps
- Dewatering & Sludge Boxes
- Long & Short Term Rentals
- Custom Tank Fabrication
- Complete soil, air, and water treatment (PFAS)
Carbon media | Alternate media
- Compliance Training and Audits
ISO 14001 | International Air Transportation Assn. (IATA) | RCRA
- Transformer removal service

PAST PERFORMANCE

- **Portsmouth Naval Shipyard - Kittery, ME** Double-walled steel tanks for fuel storage and bilge water storage for disposal
- **Pratt and Whitney Corporate HQ - E. Hartford, CT** Dewatering and temporary treatment system during construction of new corporate offices
- **United Technology - Windsor Lock, CT** Deliver a 300,000 gallon storage solution within 24 hours to prevent plant outage. All containment, pumps and hose.
- **USEPA - St Louis, MI** Tanks for treatment of water related to thermal destruction project
- **Boston University School of Data Science - Boston, MA** Operate, maintain, and maximize high solids treatment system full-time during construction of a deep well geothermal project

THE DIFFERENCE

In 2011, Liam Ferguson, a United States Marine Veteran, founded RECON with the newest, safest, and most modern fleet of equipment to support construction and remediation projects. His years of industry and military expertise provided the skills necessary to prepare and execute complex solutions for each unique requirement. RECON is recognized in the industry for experience, quality solutions, and the best in customer service. RECON's equipment is regularly maintained to ensure seamless implementation in the field. Responsive, Safe, Experienced, all with a guaranteed CAN DO attitude!
